

THE news from Washington, which we publish this morning, is important. It promises the defeat of the cruelly vindictive amendments to the House Ku-Klux Bill, which must ever be associated with the name of Senator Sherman, and form a fitting culmination to a career which in two years will end in an oblivion akin to that which Wade has been assigned by the consent of the people of Ohio, Sullabarger, of that State, who is a candidate for the place so unworthily filled by Sherman, and who has been voted for by the vote of his sentiments toward the South, opposed these amendments in the House yesterday, and insisted upon a conference committee in order that the bill, as it was originally introduced, may be passed over to Grant for his signature. The same amendments are also manifesting some opposition to the House Amnesty Bill, which singularly enough is made a part of companion piece to the Ku-Klux Bill. A few Republicans, like Trumbull, are anxious for its passage, but it is doubtful if it goes through this session. It will be longer, and then it will be our turn.

PARIS is still in the hands of the ruffians who have ruthlessly postponed the era of peace in France and prevented the re-establishment of the industries so necessary to the welfare of her people. The "Union," an outlet for their blood-thirstiness, are still in the ascendant in the great capital of Europe. Sad news. But there is not wanting an offset to it. This morning we publish the defection of leading Communists, and of propositions by them to "sell out" their dupes. That "sell out" their dupes, that "sell out" with the cruel policy they have authorized and carried to a bloody consummation. To these others "to sell." Thiers very properly turns a deaf ear. He refuses to tamper with the dignity of the Government of which he is the head by endorsing the course so far pursued by Thiers, together with the efforts of the army, will prove effective and that it will be our pleasure to announce in a few days the triumph of law and order even in the purlieus of the city of revolutions.
